

ABOUT ME

Computer Science student at Singapore Polytechnic with a strong interest in UI/UX design.

Experience creating wireframes and clickable prototypes in Figma, visual layouts in Adobe Photoshop, and websites using HTML, CSS and JavaScript.

Brings communication, teamwork and attention to detail developed through customer-facing roles.

Ong Yi Lin

UI/UX Design Student

EDUCATION

Singapore Polytechnic — Apr 2025 - Expected May 2028
Diploma in Computer Science
Previously known as Information Technology

- Specialisation in UI/UX Design

SMK Methodist ACS Sitiawan — Jan 2019 - Dec 2023
Sijil Pelajaran Malaysia (SPM)

- Achieved 100% in the Computer Science school-based project assessment, covering Form 4 and Form 5 coursework.

SELECTED PROJECTS

Study Tracker | Figma

Design for User Interaction · Four-person group project

- Designed screens for personalised study planning, including goals, subjects, available study time, learning preferences and plan summaries.
- Created screens for plan editing, export states, progress charts and priority settings.
- Added clickable interactions to connect prototype screens.

Personal Portfolio Design | Adobe Photoshop

Digital Visual Design · Individual project

- Created desktop and mobile portfolio layouts using consistent colours, typography and visual elements.
- Refined the design following lecturer feedback, organising content into distinct introduction, skills, project and contact sections.

My Pet World | HTML, CSS, JavaScript, Node.js, Express.js, SQLite

Back End Development · Individual project

- Developed a virtual pet-care web application with pet creation, feeding, grooming and visual indicators for happiness, health and grooming.
- Connected the interface to database-backed APIs for managing user accounts, pets and care activities.
- Implemented care points, player rankings and daily action limits, alongside account login and light/dark theme settings.

Mental Health and Wellbeing Website | HTML, CSS, JavaScript, Bootstrap

Front End Development · Individual project

- Developed a three-page website presenting mental-health information and a feedback form.
- Added time-based greetings, a scroll-to-top button, mood-selection validation and a live character counter.
